Dear Sirs:

In connection with the captioned application, and in response to the "Notice to Comply" with sequence listing rules dated January 7, 2008, Applicants submit a substitute copy of the "Sequence Listing" both in computer readable form (CRF) generated on an IBM computer using PatentIn, Version 3.3 Software and in .pdf form of the printed version.

The attached printed sequence listing is identical to the sequences listed in the specification as well as the sequences in the .txt file (CRF) filed herewith.

Applicants aver that the sequence listings do not include any new matter or go beyond the scope of the application as filed.

Applicants are also filing herewith an amendment requesting the attached sequence listing replace the previously filed sequence listing in the specification.

Please direct any issues to Applicant's representative at the telephone number provided below.

Respectfully submitted,
